2008 Hare & Hound Vice Champion
David Karno

KTM engineers Ready To Race machines for experienced riders for use in closed courses and designated riding areas- as depicted.

Ready to Race... is more than extreme performance machines, it's an attitude, a way of life. It's how we approach our sport... deliberate, prepared, safely, responsibly and smart.

Racing and riding can be dangerous. Before you ride a KTM: take an approved training course. Read and understand your owners manuals and instructions. Wear all protective gear: helmet, goggles, gloves, boots and body wear. Always: Ride only on surfaces your machine is built for. Respect others, all laws, the environment, restricted surroundings and noise limitations. Ride the right machine for your skill level and age. Ask your KTM dealer for assistance with these requirements.

Product and program specifications may change without notice. Images of vehicles may be equipped with options not standard.

LIMITED EDITION GRAVITY - FX PANTS

Designed with the motocross and supercross rider in mind: pants in a comfortable ergonomically pre-curved fit in 330D fabrics reinforced at the seat with 1000D Nylon Cordura. Articulated wider knee with stretch insert for a better fit. Heat-resistant and abrasion-resistant leather knee panels. Quattro stretch spandex on the calf, knee and crotch. Large biofoam panel as a back yoke protector. Ultra-light soft TPR logos. Fly cam buckle system for secure fit. Full length vented liner. Sublimated graphics in the thigh area. All seams double and triple stitched in critical areas. Genuine YKK front zip.

(30) 3PW092252 (32) 3PW092253 (34) 3PW092254 (36) 3PW092255
(38) 3PW092256

LIMITED EDITION GRAVITY - FX JERSEY

MX shirt in multi-panel Raglan style made of 100% PE micro filament fibers. Foam elbow padding. Mesh underarm and chest ventilation. Sublimated non-fading graphics. Safety stitch stretchable seams.

(S) 3PW092352 (M) 3PW092353 (L) 3PW092354 (XL) 3PW092355
(XXL) 3PW092356

LIMITED EDITION GRAVITY - FX GLOVES

Offroad gloves with Sonic welded PVC knuckle protection. Pre-shaped lycra finger panels. Adjustable velcro wrist TPR closure. Double layer clarino palm. 2-way stretch upper finger panels. Silicone finger prints for tacky grip.

(S) 3PW092752 (M) 3PW092753 (L) 3PW092754 (XL) 3PW092755
(XXL) 3PW092756

THOR CORE GLOVES

The Official Glove of the KTM Offroad Racing Team. The re-designed Core Gloves have a dimple mesh construction for increased air flow and mobility. TPR hook-and-loop wrist closure system. Integrated top of hand direct inject wing. Direct inject rubber on knuckles for protection. Tacky silicone print on fingertips for added grip and increased lever control. Clarino padded palm and thumb overlay for durability and comfort. Exclusively for KTM by Thor.

(S) U6909070 (M) U6909071 (L) U6909072 (XL) U6909073 (XXL) U6909074

THOR CORE JERSEY

The Official Jersey of the KTM Offroad Racing Team. The Core Jersey is constructed using high quality materials. It features square-mesh panels for increased airflow. Padded elbows and special sport influenced self collar construction for protection and comfort. Tacky silicone tail print keeps jersey from rising. Athletic mesh lower body construction for decreased weight and bunching when jersey is tucked in. High density printed logos on shoulders and chest. Moisture wicking polyester micro fiber construction. Exclusively for KTM by Thor.

(S) U6909000 (M) U6909001 (L) U6909002 (XL) U6909003 (XXL) U6909004

THOR CORE PANTS

The Official Pants of the KTM Offroad Racing Team. The Core Pants provide comfort, fit, protection and durability. Pant pattern developed for performance and comfort in the riding position. Sublimated spandura stretch knee panels for expansion and ventilation and full grain leather inner knee with kevlar stitching around knee panel. Sublimated ride-lite mesh inner liner is half length to allow for knee braces. Double and triple needle stitching for durability. Thigh ram air intake to keep you cool. Ratchet style waist closure. Fused lycra/rubber rear yoke panels contour the body for the ultimate fit. Exclusively for KTM by Thor.

(28) U6909025 (30) U6909026 (32) U6909027 (34) U6909028 (36) U6909029 (38) U6909030

THOR PHASE PANTS

The Phase Pants offer an excellent fit with rugged durability. Constructed of 4820 Nylon with a 500D Condura butt panel for durability and features spandura stretch panels for mobility and airflow. Adjustable waist closure. Ballistic knee panel is padded for protection. Aramid fiber inner knee panel for grip and durability. Double and triple stitched for maximum durability. Full length sewn in liner. Seamless cuffs for comfort. Polyester and nylon construction. Exclusively for KTM by Thor.

HJC RACING HELMET

The new AC-X3 by HJC incorporates racer-tested features, such as the Advanced Composite Material (ACM) shell and the Advanced Channeling Ventilation System (ACS), to provide one of the most technologically advanced helmets in its class. "ACM" Shell constructed using advanced fiberglass & Spectra® composite weave to create super lightweight feel. Three shell sizes for optimized fit and performance. "ACS" provides dual flow-through channels with 2 high capacity forehead intake vents and 2 venturi exhaust vents. Removable AquaTrans® "Open Cell" Interior Liner quickly wicks moisture away from the skin. Easily removable liner and cheek pads for cleaning or custom fitting. Large eye-port opening for greater visibility. Integrated non-slip goggle strap holders on each side of the eye port. Soft helmet storage bag included. SNELL and DOT approved.

EVS WEB KNEE BRACE

Web Knee Braces provide ultimate protection and stability without limiting mobility. Provides direct impact protection by offering full-coverage impact shielding of your leg and knee area, and provides protection to the knee joint itself, by providing stability and structural support to your knee's skeletal structure. Works to absorb the hit your knee would otherwise be taking in a jump, a crash, or in case your boot gets caught in a deep rut. The only brace that is designed to actually absorb the impact, rather than pass it on to other parts of your leg. Built-in crumple zones: help to limit the risk of a femur break. 4-bar linkage hinges: perfect anatomical matching of the knee's bending motion. Adjustable hyper-extension stops: Choose from 170°, 160° and 150°. Stop your leg from extending (straightening), so to potentially help prevent a hyper-extension. Lightweight and comfortable to wear. Twin-wall, hollow-core, carbon fiber construction for strength and durability. Articulating knee cup: keeping your knee impact-protected no matter if your leg is bent or straight. Sleek design fits comfortably in most motocross boots. Removable and washable liner keeps the brace attached to your leg without sliding down. Features include new hinge covers, new buckles, a reinforced hinge system and a stronger, even more durable frame. Right and left leg specific. Exclusively for KTM by EVS.

RIGHT

(S) U6908136 (M) U6908137 (L) U6908138 (XL) U6908139

EVS BALLISTIC JERSEY

Molded polyethylene impact areas on the chest, shoulders, back and elbows offer peace of mind against crash damage during any type of riding. Lightweight and cool ballistic fabric with mesh stretch panels for superior fit. Easy to adjust double-closure kidney belt makes the Ballistic Jersey the ultimate all-in-one piece of upper body protection. Full torso and elbow protection. Fully machine washable. Includes kidney belt. Exclusively for KTM by EVS.

(S) U6909140 (M) U6909141 (L) U6909142 (XL) U6909143 (XXL) U6909144

EVS YOUTH BALLISTIC JERSEY

Same great protection and design as adult model. Does not include kidney belt.

(S) U6909145 (M) U6909146 (L) U6909147

THOR FORCE PROTECTOR

The new and completely redesigned Force protector offers extensive coverage without restricting movement. Utilizing fully articulating front and back panels that naturally adjust to fit the contours of your torso. Of course the innovation doesn't stop there...check out the removable shoulder caps that provide clearance for neck brace compatibility; the integrated ventilation system with oversized intake port on the chest panel lets air in, but keeps roost out; the ratchet-style closure system allows for precise fitment. Exclusively for KTM by Thor.

Justin Soulé

KTM engineers Ready To Race machines for experienced riders for use in closed courses and designated riding areas- as depicted.

Ready to Race... is more than extreme performance machines, it's an attitude, a way of life. It's how we approach our sport... deliberate, prepared, safely, responsibly and smart.

Racing and riding can be dangerous. Before you ride a KTM: take an approved training course. Read and understand your owners manuals and instructions. Wear all protective gear: helmet, goggles, gloves, boots and body wear. Always: Ride only on surfaces your machine is built for. Respect others, all laws, the environment, restricted surroundings and noise limitations. Ride the right machine for your skill level and age. Ask your KTM dealer for assistance with these requirements.

Product and program specifications may change without notice. Images of vehicles may be equipped with options not standard.

BRAKE BLEEDER SCREW
77013920000 SX / XC / EXC

Make brake system bleeding as easy as possible. Simply change the original bleeder screw on the brake caliper to this new bleeder screw with included holding valve. Open the screw of the non return-valve a half turn and pump the brake fluid with the brake lever through the brake system. The holding valve prevents air from coming back into the system. Includes anodized dust cap.

SXS TITANIUM FACTORY SLIP ON SILENCER
SXS09300560
SX / XC / EXC 200/250/300 98-09

The Akrapovic system is designed for riders who are looking for the absolute finest quality exhaust system made and know how to get the most out of increased performance on the track. The titanium, hexagonal silencer features carbon fiber brackets and end cap.

HANDLE BAR PAD
U6909856 50-65 09
U6909855 50 98-08

Featuring the official KTM PowerParts logo.

HAND GUARDS ORANGE/BLACK
7800207900004 SX / XC / EXC / ATV
HAND GUARDS WHITE/BLACK
7800207900020 SX / XC / EXC / ATV

New two component injection molding technology offer light weight, maximum strength, and uncompromising protection from mud and debris.

MUD SHIELDS FOR HAND GUARDS (Not Pictured)
7800207902030

Additional mud protection for hand guards.

UNIVERSAL DECAL SET
50308199000 SX/XC/EXC 98-06

Unique design to allow fitment for many different year motorcycles. High quality adhesion. Includes shroud, front and rear fender decals.

HIGH SEAT 70MM
78007140000 SOFT FOAM
78007140100 STANDARD FOAM
SX 07-09
XC / EXC / SMR 08-09

Specifically designed for rider over 6 feet tall, approximately 70mm higher than stock seat.

LOW SEAT
77307040200
SX 07-09
XC / EXC / SMR 08-09

Approximately 15mm lower than stock seat.

SOFT SEAT
78007240000
SX 07-09
XC / EXC / SMR 08-09

Softer foam for more comfort, stock height.

STEPUP SEAT
78007240100
SX 07-09
XC / EXC / SMR 08-09

Raised rear portion to hold rider in correct riding position.

ATV RACING BATTERY BOX U6909857 SX / XC ATV

Made of light weight, high strength, aircraft grade aluminum designed to withstand even the roughest track conditions.

ATV REAR GRAB BAR WITH NUMBER PLATE 83003905000 SX / XC ATV

Features pre-drilled number plate with two mounting configurations. Made of light weight, high strength, aircraft grade aluminum.

ATV FRONT COVER 8350800200030 SX / XC ATV

One piece headlight cover for racing applications.

UG909852

DIGITAL TIRE WARMERS

Temperature Adjustable with Solid State Micro-Processor and Digital Display. See actual tire temperature while the warmer runs. Temperature set point is changed with the push of a button - range up to 212 degrees F. Use higher temps to get ready to hit the track & lower temps for saving Heat Cycles in between track sessions. Safely heat rain tires and different compounds. Includes a soft carrying tote from Ogio and a foam filled hard case for the digital controllers.

990 Super Duke / RC8

WAVE BRAKE DISK 320mm

Stainless floating disc with anodized orange center provides consistent brake performance under extreme conditions. Even at the highest temperatures the outer disc does not bend or warp due to the advanced design and race proven materials. The alloy center is lighter than original rotors and is race track approved. Specially designed for the KTM superbikes, this rotor is a great combination of improved performance and visual appeal.

STEALTH SPROCKET

These sprockets have steel teeth and an aluminum inner part with the sections being permanently joined by high strength rivets. Stealth sprockets last 3 times longer than aluminum sprockets on average and are half the weight of a normal steel sprocket. If you are looking for the ultimate in quality and performance this sprocket will meet your demand.
