Nick Wey's MDK/KTM 450 SX-F, pictured above, is the foundation and inspiration of the exclusive KTM 450 SX-F Factory Replica. More than just a sticker kit – this machine is as close to a factory works ride as you can get. Extremely limited production, race-tuned exhaust system with FMF Silencer, SXS engine with factory crankshaft, connecting rod, piston pin and counter weights, lighter wheels, machined black anodized triple clamps with variable offset, Brembo machined front and rear calipers, factory SXS suspension with a suspension certificate for a one time free suspension and set up of your SXS fork and shock, exclusive graphics and much more. KTM's Ready-to-Race 450 SX-F Factory Replica looks and performs as if it just rolled out of the team transporter. Limited Availability is scheduled for early spring 2008. Contact your dealer for details, full specs and delivery. MSRP \$14,998 USD

KTM engineers Ready To Race machines for experienced riders for use in closed courses and designated riding areas – as depicted.

Ready to Race... is more than extreme performance machines, it's an attitude, a way of life. It's how we approach our sport... deliberate, prepared, safely, responsibly and smart!

Racing and riding is dangerous. Before you ride a KTM, take an approved training course. Read and understand your owners manuals and instructions. Wear all protective gear: helmet, goggles, gloves, boots and body wear. Always... Ride only on surfaces your machine is built for. Respect others, all laws, the environment, restricted surroundings and noise limitations... Ride the right machine for your skill level and age! Ask your KTM dealer for assistance with these requirements.

Product and program specifications may change without notice. Images of vehicles may be equipped with options not standard.
