65 XC PICTURED

If you are looking for the top woods dominating mini bike loaded with trick PowerParts and features, you've found it in the KTM 65 XC and 85 XC complete with the Factory Kit. These kits include a highly desirable Rekluse automatic clutch assembly, exclusive KTM by Renthal orange handlebars, spark-arrested KTM by FMF silencer, aluminum skid plate and an extra set of Michelin treads. For 85 XC only, KTM has included the larger IMS tank so riders can travel further before returning to utilize their brand-new 5-gallon drum. KTM knows how much younger riders love stickers, so PG answered the call with Special Edition mini graphics.

How can KTM make the top off-road competition bikes even more enticing? With the KTM XC, XC-W and EXC Factory Kits ... that's how. From front to back, top to bottom, these hot kits are enough to make any bike owner jealous. With the spark-arrested KTM by FMF silencer cranking up the power curve and the custom PG graphics, you get performance and looks all in one package. The quick-release poly resin skid plate protects your investment while the handguards protect your digits. And, what's not to love about an extra set of Michelin tires when race and riding budgets get squeezed.

KTM has heard you like to go fast. Now that you know KTM has uncovered your dirty secret — don't worry, KTM won't tell anybody about that other nugget your holding on to — why not go fast on a KTM loaded with Factory Kit desirables? These kits feature a spark-arrested KTM by FMF silencer, Special Edition PG graphics, trick hydraulic case guard, fork bleeder valve set and a high-strength aluminum guide plate. Oh, and let's not forget about the spare spoilers, grips and Michelin tires. Once your done going fast, stare at it admiringly after putting it on the KTM bike stand.

Magazines have claimed all that is needed to get the shootout-dominating XC ATVs "Ready to Race" are nerf bars and a steering stabilizer. KTM has answered by offering the XC ATV kit with the top-performing Öhlins steering stabilizer ideal for brutal woods racing and the large aluminum nerf bars with integrated heel guards and nets. These kits are also highlighted by a larger front grab bar and an extra set of orange plastic so racers can freshen their ATV's look mid-way through the race season. All that you need to do is get yourself looking good, and you can do that by checking out our PowerWear catalogue.

450 SX, 505 SX

505 SX PICTURED

For years ATV racers have been asking for a truly race-ready motocross ATV, KTM answers with the 450 SX and 505 SX ATVs loaded with extras. With the FMF Competition Slip-On exhaust combined with the Öhlins steering stabilizer in this kit, all the racers will need to add is their talent. And KTM knows you are loaded with talent. Like the XC ATV kit, the SX ATV kit is also highlighted by a front grab bar and an extra set of KTM orange plastic. To help mechanics and racers wrench and prep between motos, a well-designed ATV stand as well as air and oil filters and top MOTOREX product is included.

990 SUPER DUKE TRACK

990 SUPER DUKE TRACK KIT

Although your KTM comes "Ready to Race" straight from the factory in Mattighofen, Austria, every racer or track day junkie knows there is always one more thing to tweak or add for that extra bit of performance. The Factory Track Kits give you the option of which performance parts will make the difference in picking up that last half second. This track kit is perfect for taking your 990 Super Duke to your free track day and setting up the pits like a seasoned professional. Once you hit the track, put the high-quality steering damper into action. And, why not drag a knee because you have KTM knee slider replacements!
