Now that you know KTM has uncovered your dirty secret — don't worry, KTM won't tell anybody about that other nugget your holding on to — why not go fast on a KTM loaded with Factory Kit desirables? These kits feature a spark-arrested KTM by FMF silencer, Special Edition PG graphics, trick hydraulic case guard, fork bleeder valve set and a high-strength aluminum guide plate. Oh, and let's not forget about the spare spoilers, grips and Michelin tires. Once your done going fast, stare at it admiringly after putting it on the KTM bike stand.
